1.

The Project.

Thank you for requesting a survey and quotation from Vitalityplay, a market leader in the installation of synthetic surfaces and playground installations.

Following our detailed on-site survey, we are delighted to provide a detailed proposal to supply and install softplay and multiplay artificial grass resurfacing and progressive stage of clamber stack climbing equipment

2.

Your Playground Transformation 3D Design.

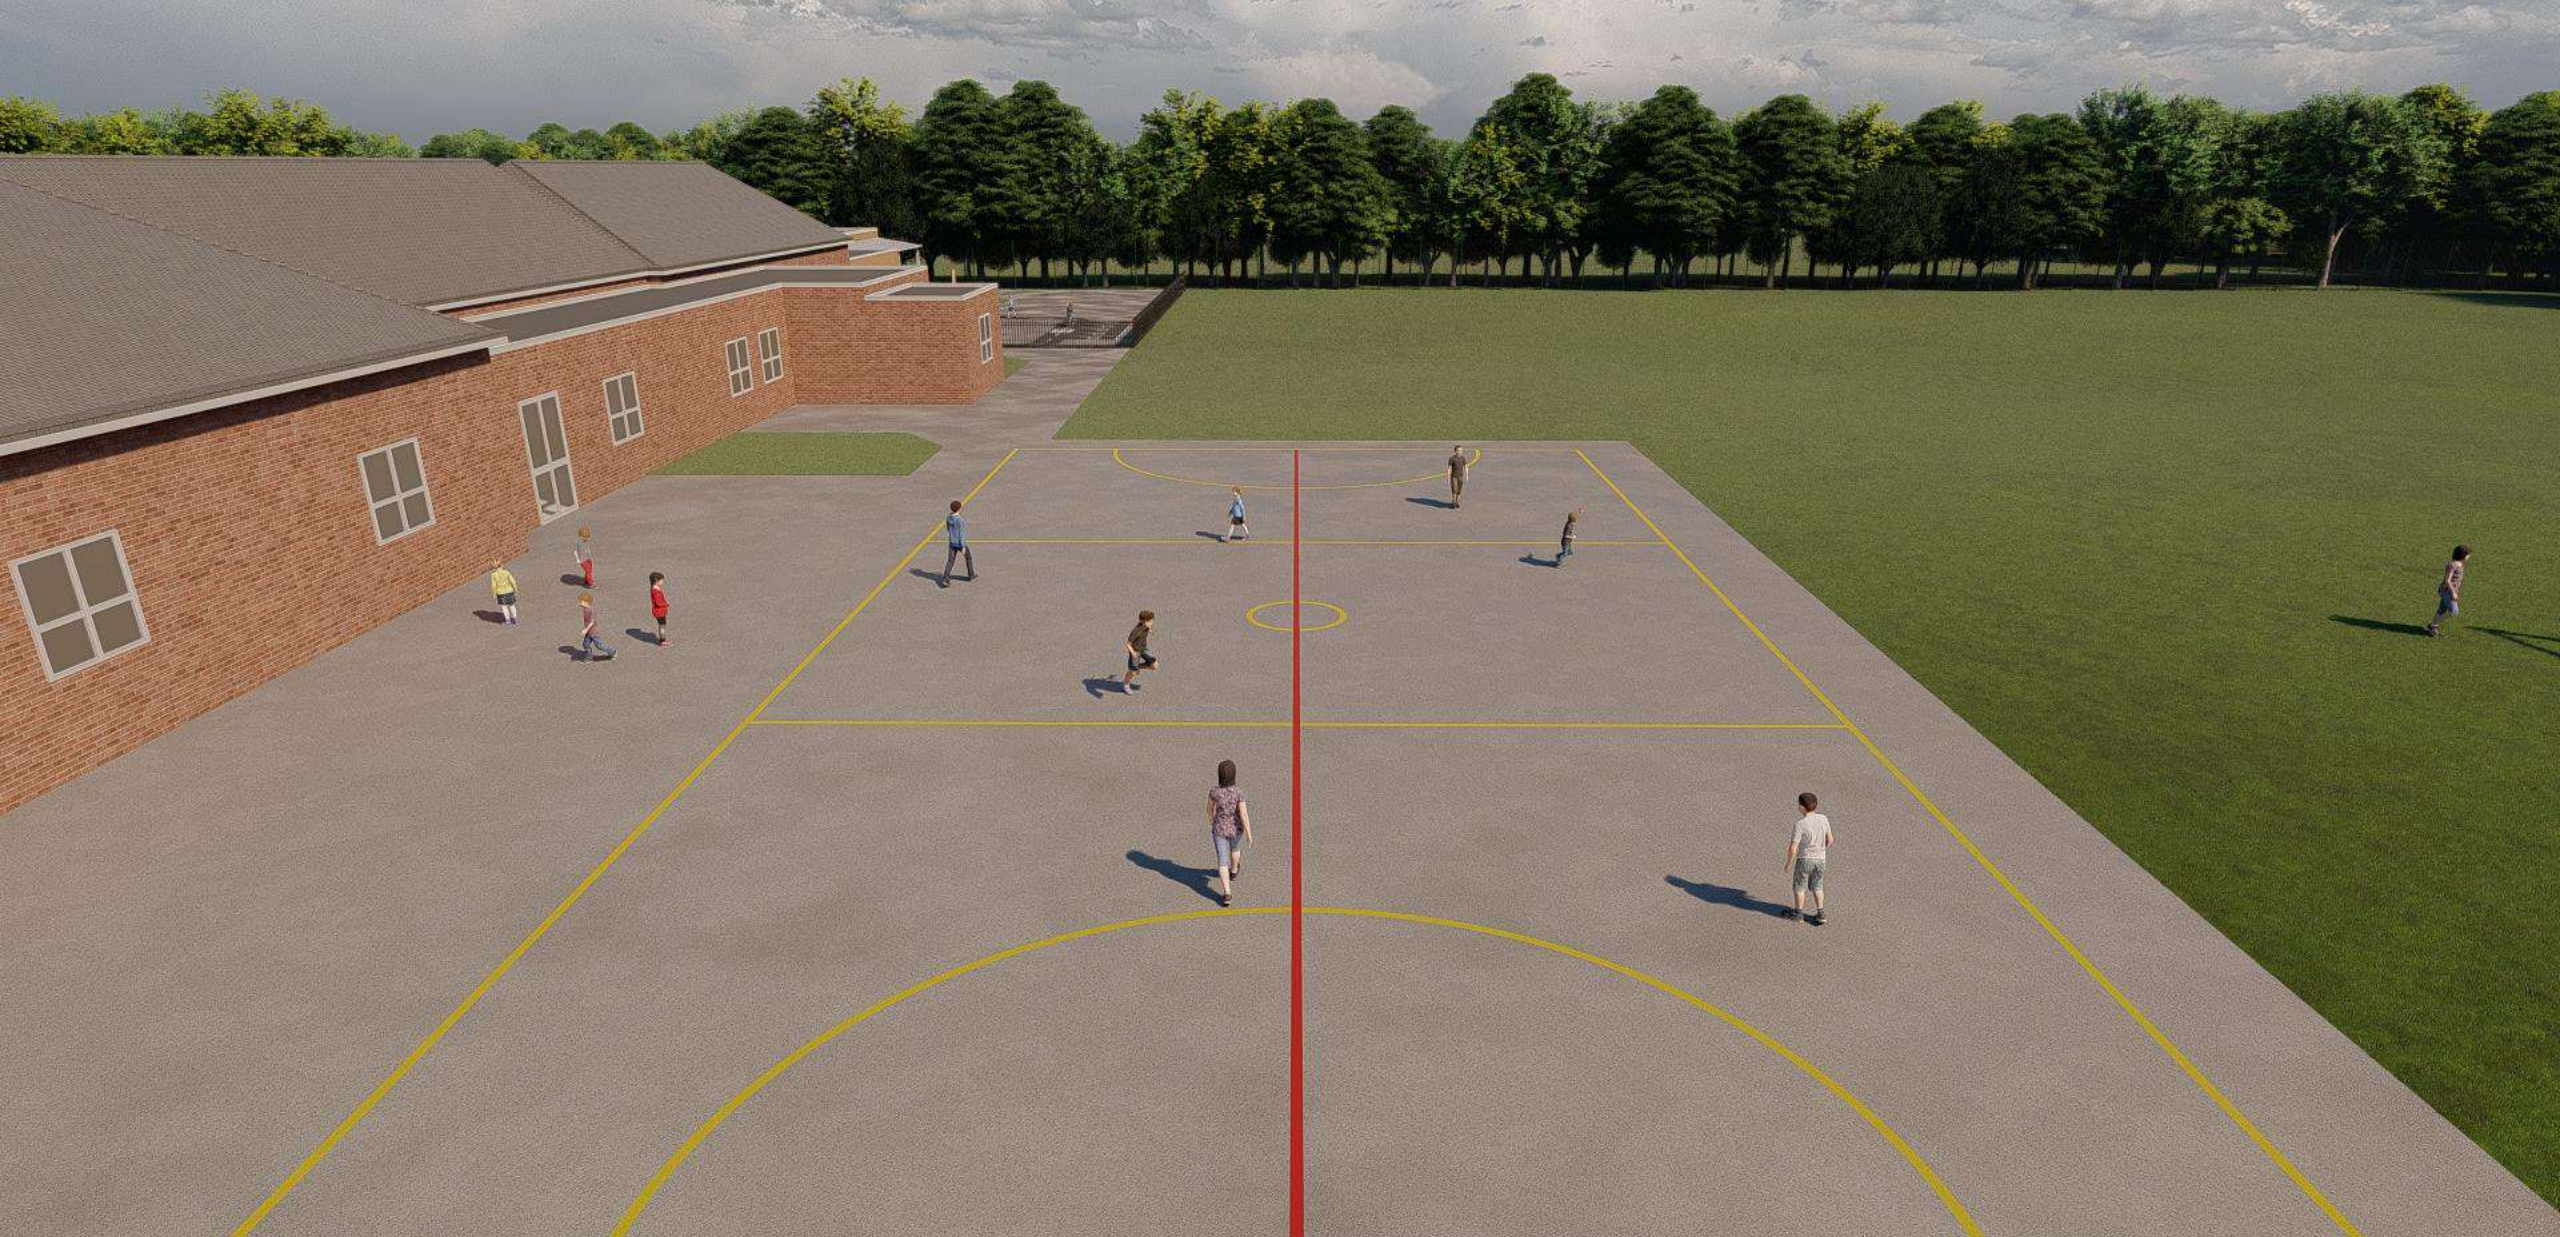

3.

Your Installation Specification, Process & Payment Terms.

The installation process on to the area will consist of the following steps:

- Clean and prep existing surface (EYFS will need subbase and screed)
- Chosen equipment will be concreted firmly in place.
- Installation of shockpad to a depth which cover FFH.
- Apply weed membrane across the whole installation area.
- Installation and securing of softplay / multiplay artificial grass / jet technology thermal markings)
- Final brush and spot checks. Team leader will sign off project with Client once completed.

- Our installation quote includes all materials, labour, equipment hire and removal of all-natural waste materials required to complete the proposed works unless otherwise stated.
- The prices quoted are based on the design provided and our standard installation specification unless otherwise stated and assume unrestricted access to the installation site and delivery of aggregates in loose loads. Any turfed areas damaged by plant will be levelled and prepared ready for the school to reseed.
- At Vitalityplay we recognise that the installation of artificial grass is a significant investment for schools, and as such offer a 10-year manufacture warranty and UV stability guarantee on our complete grass range.
- Our standard terms of payment are 50% deposit on booking your installation, 30% at the start date of installation and 20% upon completion of installation. However, we are happy to discuss alternate payment terms should this be required.
- Working predominantly in schools, Vitalityplay are able to offer all the necessary health and safety assessments, RAMS documents, insurances and DBS checked, in house, installation teams to offer safe and efficient term time installations.

4.

About Us.

At Vitality Play we recognise the hugely important role played by schools in helping children build a healthy relationship with sport and physical activity. Playing sport and being active is vital for young people's physical and mental health whilst also improving behaviour and concentration. Sport and being active is a crucial part of school life, and now more so than ever.

We offer a comprehensive range of all weather solutions that include MUGA's, Rugby and Football pitches, Daily Mile Tracks, Outdoor Gyms and Play Areas. Every one of our installations are supported by a 10 year manufacturers guarantee and we are proud to deliver a customer experience unrivalled in the industry!

SOFTPLAY

all - weather

short & dense

ideal for early
years play

soft and
durable

UK manufactured

Manufactured with market leading propellor shaped blades, SoftPlay offers a super soft yet resilient surface ideally suited for safe and fun early years play in all weathers.

Boasting three greens tones and a beige thatch, SoftPlay offers an extremely natural and realistic appearance, whilst it's short and dense 24mm pile height and non-sand infill requirement ensures SoftPlay remains an extremely low maintenance surface.

SoftPlay is the ultimate artificial grass surface for early years play areas.

Product Specifications:

Pile height:	24 mm
Stitch Rate:	160 / metre
Colours:	3 Tone Green and Beige
Yarn Profile:	Propellor Yarn
Primary Backing:	100% Woven Polyprop
Secondary Backing:	Ultrabak SBR latex
Coating:	Ultrabak SBR latex
Total Product Weight:	2,557 g/m ²

MULTIPLAY

all - weather

suitable for school shoes & sports trainers

ideal for heavy traffic play

5 colours available

UK manufactured

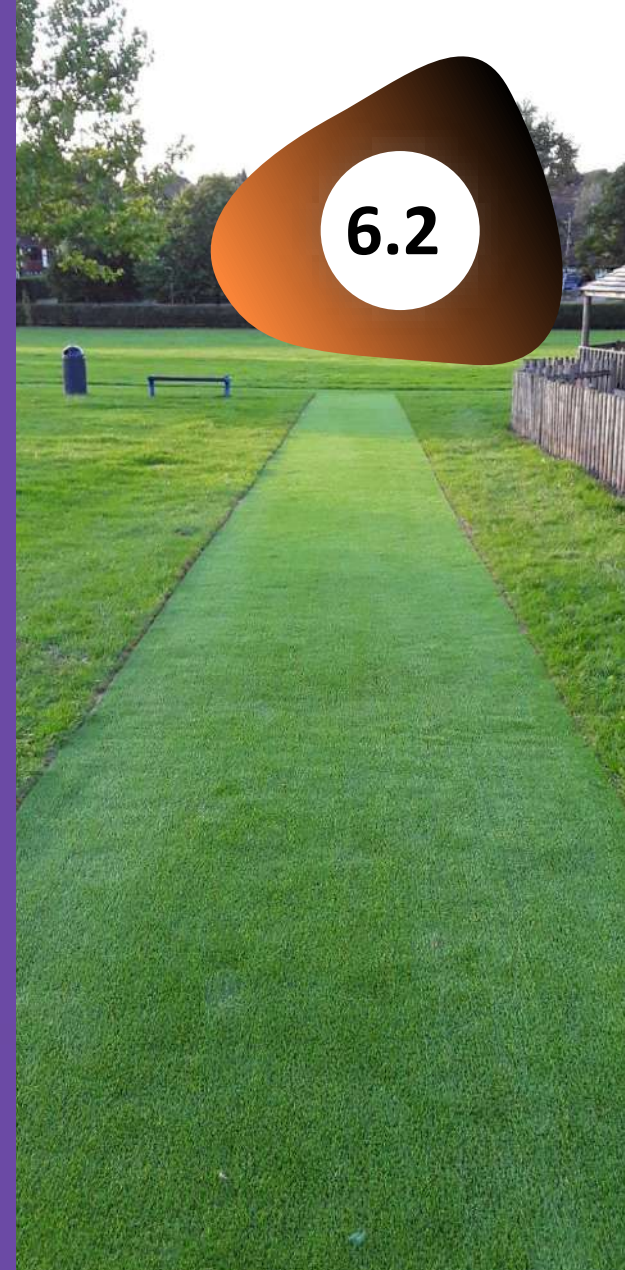

MultiPlay is a 2G all-weather MUGA surface designed specifically for recreational level play. Manufactured using the latest texturised monofilament yarns and a slightly thicker blade, MultiPlay offers an extremely durable and robust MUGA surface that can be used wearing both normal school shoes and trainers. Offering a safe yet slightly slower paced surface it is ideal for teaching a wide range of sports at a recreational level whilst maintaining a perfect balance of ball bounce, ball roll, traction and shock-absorbency to ensure a truly all-round MUGA surface.

Installed with an optional sand dressing, MultiPlay is a low maintenance MUGA surface option. MultiPlay has been an extremely popular surface for all-weather running and walking tracks in schools. MultiPlay is available in a range of colours and offers the option of installing permanent MUGA line markings.

Product Specifications:

Pile height:	18 mm
Stitch Rate:	290 / metre
Colours:	Green, Blue, Red, Yellow, Black
Primary Backing:	100% Woven Polyprop
Secondary Backing:	Ultrabak SBR latex
Coating:	Ultrabak SBR latex
Total Product Weight:	2,020 g/m ²
