

Honiton Primary School

## YEAR 3 AUTUMN 2 HOME LEARNING

Over the next few weeks, we would like you to choose an activity from the list below and bring it into school by Monday 2nd December.

We look forward to seeing your fantastic home learning!

**Create a collage/scrapbook style page of some of Antoni Gaudi's work. What are the buildings names? What do you notice about his designs? Could you draw your own design inspired by his?**

**Make a poster on different ways you can stay safe outside of school - especially now it is getting darker in the mornings and evenings!**

**Research which different inventions come from the time of the Industrial Revolution. Can you order the inventions on your own timeline?**

**Use junk modelling to model your own train. You can choose whether to make a steam train, like they used in the Industrial Revolution, or a modern day train.**

**Make your own storyboard of the Creation Story, ahead of our learning about Christianity.**

Thank you for your hard work,

Miss Collier and Mr Court
