

## Honiton Primary School

Year 4 Home Learning:

### Our next topic is Ancient Civilisations

Choose one or more of the following activities to bring into school. Help us make our displays look wonderful and learn a bit about our exciting new topic!

- Create a poster or fact file about Ancient Egypt, what was life like back then?
- Research the ancient Egyptian numeral system, make your own script. (You could stain it to make it look authentic.)
- Create or draw an electrical circuit, could you include a buzzer, light or switch?
- Explore a range of different bottle designs and look at the work of Rene Lalique. Sketch different ideas for bottles considering shapes, lids, coiled and detail. Could you create a Rene Lalique inspired bottle using clay?
- Create your own Egyptian pyramid using a range of materials and equipment.
- Use Turtle Academy: [https://turtleacademy.com/playground#google\\_vignette](https://turtleacademy.com/playground#google_vignette) to program your own turtle. Could you program it to create a letter?  
Forward = FD Backwards = BK Left = LT Right = RT

***Remember, these are only suggestions, be creative!***

Please bring in your fantastic creations by Thursday 28th November 2024
